Ms. Kirsten Hutchison – Superintendent
Ms. Kris Evers – Administrative Assistant

August 2022

Comfrey Public School uses a variety of digital tools to support student learning. Technology vendors and software is utilized to support work as we help all students develop the skills necessary to succeed in an ever-changing world.

We will have an inventory of our curriculum, testing, and assessment tools posted at comfrey.mntm.org and will include an outline of the student data elements within each tool. This list will be maintained and communicated annually to all families at the start of the school year.

Please reach out to Kirsten Hutchison with questions regarding specific digital tools used in classrooms.

Sincerely,

Comfrey Public School
