Name Paragraph

Although I like my name Juleen because it is unique I would choose to be Xenia if I were forced to change it. Literally, the word means hospitality, and it has a Greek origin. Since I enjoy having people over to my house, I think the name appropriately suits me. I also like Xenia because it sounds Russian, and I have several connections to that nation and its culture. Moreover, the name is close to Xena, a female warrior in mythology, and I like the image that conjures. I believe the name would inspire me to be strong as well as hospitable. I have no real plans to change my name, but I relish in the thought that Xenia can be my own alter ego.
