

**2021-2022 School Year Pesticide Notice**

A Minnesota state law requires that schools inform parents and guardians if they apply certain pesticides on school property. State law also requires that you be told that the long-term health effects on children from the application of such pesticides or the class of chemicals to which they belong may not be fully understood. The Foley School District does not apply pesticides on school property unless all other measures have failed to control the problem. In the event that insect control sprays and dusts need to be applied, it will only be done when students are absent from the areas, and will be out of the area until the spray and any odor has dissipated. If you would like to be notified prior to a chemical application, please contact Darwin Fleck at 320-968-8409 or [dfleck@apps.isd51.org](mailto:dfleck@apps.isd51.org)

**2021-2022 School Year Asbestos Notification**

Foley Public Schools has a stringent inspection and management program for all asbestos containing building materials. As a matter of policy, the district will maintain a safe and healthful environment for our community's youth and employees. Every three years, all buildings owned and leased by the district are re-inspected by an EPA accredited inspector for asbestos condition. Every six months, all materials containing asbestos are surveyed. Any materials needing repair or removal are done so under our asbestos operation and maintenance program safely and responsibly. The Foley School District has a list of locations and types of asbestos containing materials found in our buildings. A copy of the asbestos management plan is available for review in the buildings and grounds office. Questions related to the plan should be directed to Darwin Fleck at 320-968-8409 or [dfleck@apps.isd51.org](mailto:dfleck@apps.isd51.org) or Wayne Warzecha at Resource Training & Solutions 320-293-0397

**2021-2022 Indoor Air Quality Notification**

The Foley School District is proud to be taking a leadership role in providing safe, comfortable, and productive environment for our students and staff so that we achieve our core mission – educating students. Our school will follow the EPA guidelines to improve our indoor air quality (IAQ) by preventing as many IAQ problems as possible, and by quickly responding to any IAQ problems that may arise. Good indoor air quality requires an ongoing commitment by everyone in our school because each of us daily make decisions and performs activities that affect the quality of the air we breathe. Our IAQ Coordinator, Darwin Fleck, will follow up on any IAQ problems you may have, which includes taking a team leadership role, coordinating emergency response, and serving as our information resource on IAQ. Darwin Fleck may be contacted at 320-968-8409 or [dfleck@apps.isd51.org](mailto:dfleck@apps.isd51.org)

The District safety committee continues to work closely with health and safety resources to ensure compliance with all management plans. The district has also contracted with Resource Training & Solutions and Wayne Warzecha at 320-293-0397 to assist the district.
