2. Choose a location by typing in a city and state, or enter a ZIP code.

3. Select what you are looking for:

- “Doctor”: You may enter a last name to limit your search, or leave it blank to search for all doctors.
- “Medical Clinic”: You may enter a clinic name, or leave it blank to search all clinics in the area.
- “Hospital”: Leave it blank to search for all hospitals or enter a name to search for a specific hospital.

It will search in a 20 mile radius to begin, but you can change the distance to narrow your search or expand your search, if necessary, by selecting [Filter My Results](#).

4. At the bottom of the search result page, there is a link that allows you to save the search in a PDF.
