

661 CO-CURRICULAR AND INTER-SCHOLASTIC PROGRAMS

The Board of Education believes that student activities at school are a vital part of the total educational program and that they enhance the development of wholesome attitudes and good human relations, as well as knowledge and skills. The Board believes that school citizenship, as reflected in student activities, is a measure of the achievement of important school goals. The Board recognizes that the greatest values to be derived from both curricular and extracurricular student school activities occur when such activities are developed and encouraged through participation among, or the knowledge of, the student body, interested members in the community, and school staff.

The Board further believes:

1. All student participation will be on a voluntary basis.
2. Student activity funds will be used for purposes which benefit the student body of the school.
3. The management of student funds will be the responsibility of the students with assistance from school system administration.
4. Student clubs and other student groups will be organized to promote or pursue specialized athletic, social service, and social activities.

Foley Public Schools Adoption Record: 12/18/2017, 05/15/2023
