## **Congratulations**

This month, our AP Economics students participated in our annual Urban Plan Presentations, and they did not disappoint.

Over the past few weeks, they were given the task of redeveloping a five and a half block district in the fictional city of

Yorktown. Through the process they had to create a proposal that met the specific financial, social, political, and environmental goals of the city, while balancing their own company's vision and profit margins. At the end of the project,

they had to present their proposals to a "city council" made up of real developers, brokers, and architects from our community. Some of which have been in the industry longer than our students have been alive. I am pleased to share that

our students rose to the challenge and produced some truly great proposals. Most impressive was their ability to work together and lean on each other's strengths through the process. After the presentation, the council decided on the proposal

they believed best met the city's goals and awarded them the contract. This year's winners were Jacob Hatanaka, Phuong Duong, Kainoa Mackowiak, and Takehiro Yaguchi representing Jakput Construction. The council was so impressed with

their proposal and ability to deliver it. One developer even expressed his willingness to hire some of them if he wasn't retired. All in all, it was a great year of Urban Plan and a great experience for our students.

### **2,242 High School Seniors Are Awarded Full Scholarships to Top Colleges through QuestBridge**

QuestBridge is proud to announce the results of the 2023 QuestBridge National College Match, a program that connects high-achieving high school seniors with full four-year scholarships to 50 of the nation's best colleges. Out of over 20,800 applicants, QuestBridge selected 6,683 Finalists to be considered for the QuestBridge National College Match Scholarship (Match Scholarship). This year, QuestBridge's 50 college partners matched with 2,242 Finalists, who are recognized as Match Scholarship Recipients. This is the highest number of Match Scholarship Recipients to date for QuestBridge. "We are thrilled to welcome this historic number of QuestBridge Scholars," said Ana Rowena Mallari, Co-Founder and CEO of QuestBridge. "These Scholars will bring a depth of thought and range of experiences to our college partner campuses that will surely enrich their new communities."

Since 2003, the QuestBridge National College Match has successfully connected over 14,500 students with full scholarships at college partners. These 2023 Match Scholarship Recipients become the first QuestBridge Scholars for the Class of 2028. Based on an estimate of prior years, 40% of non-matched Finalists were admitted to at least one college partner through QuestBridge Regular Decision or other admissions rounds.

## **AHERA**

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which mandated the Asbestos-Containing Materials in Schools Rule, 40 CFR Part 763. It requires all primary and secondary school buildings to be inspected by AHERA accredited inspectors and to identify all asbestos-containing building materials. The rule further requires the development of a management plan by an AHERA accredited management planner that is based on the findings of the inspection. The management plan outlines our intent in controlling the potential for exposure to asbestos fibers in our school. In February 2001, Hawaii Administrative Rules Chapter 11-502 was adopted by the Hawaii State Legislature. These rules essentially mirror the requirements of the AHERA regulations. In both cases, the rule requires our school to notify parents, teachers, and employees of the presence and status of asbestos containing material in our school buildings.

The initial inspection of our school was conducted in 1958 and identifies some asbestos-containing materials. Since that time, we continue to conduct periodic surveillances and triennial re-inspections to ensure that the asbestos-containing materials remain in good condition and do not pose a hazard to our students and staff. An asbestos management plan was drafted based on our initial inspection and submitted to the Hawaii State Department of Health. It outlines in detail the methods we will use to maintain the material in a safe manner. The management plan is updated regularly as asbestos is removed or conditions change. A copy of the management plan is on file in the administrative office and is available for your review during our regular school hours. Should you have any questions, please call the school at 808-305-0500.
