

ROCKETS ONLINE CAMPUS

“Where all students will learn, grow, and succeed!”

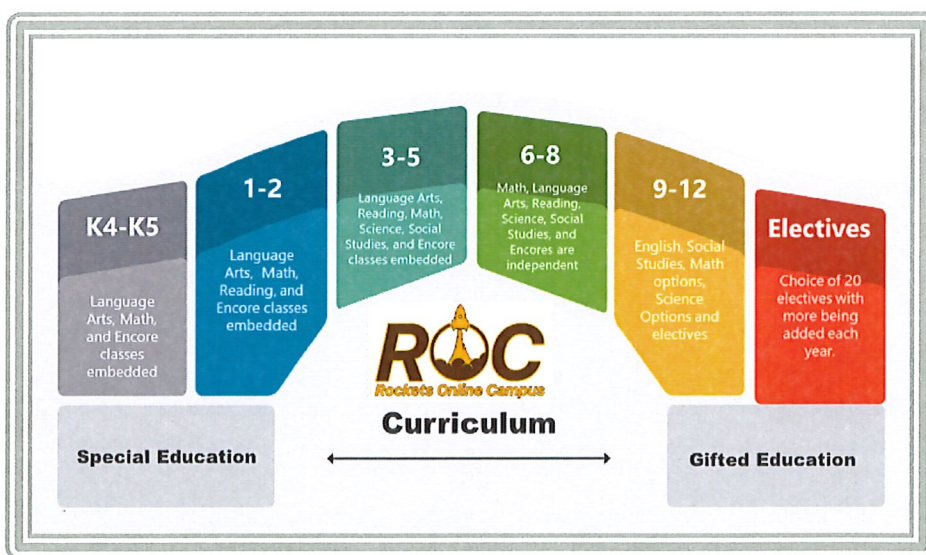

814-827-0565

Website: www.rocketsonlinecampus.org

The Rockets Online Campus (ROC) is an exciting cyber school opportunity for students in grades K4 through 12th grade. Our dedicated and highly-qualified faculty, staff, and administration will work endlessly to support each and every student and their family.

All ROC students will be provided with high-quality and locally-created curriculum. The Rockets Online Campus provides a vast curriculum that is comprehensive and meets the student's needs and interests. All Rockets Online Campus classes have been created and are supported with local-highly qualified and certified teachers. The structure of the Rockets Online Campus focuses on partnering with families and students to achieve success. The Rockets Online Campus will empower all participating students and their families to become active participants in their own learning and equip them with skills for the future.

The Rockets Online Campus provides both asynchronous and synchronous learning opportunities. All content is designed to provide a rich and solid educational foundation for the student. The courses have a consistent structure or framework and are designed to provide students with a high level of engagement, motivating assignments, and assessments that will indicate academic achievement.

Rockets Online Campus Testimonials

Mrs. Sheri Yetzer

Superintendent, Corry Area School District

"This program is utilized predominantly for K-8 students and students with disabilities. For elementary students, this program provides some live learning time with their teacher. This ability to connect directly with a teacher each day is key to their success. In addition, students with disabilities in all grade levels are provided direct access to a case manager for support and academic modifications or accommodations...

There are office hours during the day for all students that have questions regarding technical issues or academic clarifications. I am also able to work very closely with the teachers and administrative staff to assist in all areas contributing to student success."

Bill Vonada

Superintendent, Cranberry Area School District

I have been very satisfied thus far with the easy transition to the ROC. Mike and his team have been easy to work with and very accommodating both with our staff and with our students. I am most impressed with the recruiting efforts of Mike in attempting to keep our students in school locally and enjoy all of the benefits that go along with that.

The Rockets Online Campus faculty, staff, and administration will work endlessly to support your student and your family as your child goes through their educational journey. Our flexibility, passion for support, and dynamic curriculum will provide all Rockets Online Campus students with a high-quality educational opportunity. Please reach out to us and let us help you and your child choose their path and make their online education a positive and rewarding experience.

Thank you,

The Rockets Online Campus Team

Dr. John Kimmel, PhD

Superintendent, Union School District

Union School District was presented with the opportunity to partner with Titusville's Rockets Online Campus Program in the Spring of 2021 to provide a cost-effective alternative to traditional cyber programs. Union has utilized Educere and eAcademy for several years to provide online education services to students looking for an online option, but not wanting to go the traditional cyber education route.

Having the partnership with ROC saved our district approximately \$600,000 for the school year (5% of our total operating budget) as compared with what we would have spent had those students enrolled in traditional cyber programs.

Titusville was very responsive. We have gotten to the point where the program feels like an extension of our own school which provides a much higher level of support for students than have our previous online service providers. I am thankful for the partnership that we have with the Titusville Rockets Online Campus Program and look forward to continuing that partnership into the future.

ROC Parent – Corry Area SD

I don't think I have anything to add other than I'm very happy with this program and how it's ran! We love the flexibility of the lessons and being able to work ahead or review what the kids are needing for each lesson. I also love that when the kids or I have any questions that the responses are very quick and helpful. Thank you for all you guys do!
