Smart Snacking in School

KMS School District

Safer & Healthier Foods Plan

KMS Public Schools promotes student wellness and safety by monitoring food provided at the school for student consumption. KMS Public Schools strives to minimize the risk of students to potentially harmful foods or allergens.

Whether for consumption in the classroom or at school-sponsored meetings or activities, **all foods must be commercially prepared, commercially packaged and unopened.** In no case may homemade goods be shared or distributed for student consumption.

Please coordinate with teachers and administration before bringing snacks into classrooms. The snack nutrition and ingredient food label should be presented 3 days prior to the snack arriving in the classroom for review by the health office.

Thank you for your help and understanding in keeping our students safer and healthier.
