

Board Policy 510

Concussion Management

Adopted: 9-14-2020

I. PURPOSE

The purpose of this policy is to work with the school and sports communities to make information available about the nature and risks of concussions; to rely on the training of coaches, activity advisors, and officials regarding concussions through the appropriate governing body; and to authorize care and/or removal of athletes or participants when a concussion is exhibited or suspected.

II. POLICY STATEMENT

East Range Academy staff, coaches, and referees/officials—whether paid or volunteer—shall complete initial and ongoing training on concussions as set forth below. East Range Academy will make available to youth athletes and their parents concussion information.

III. DEFINITIONS

- A. “*Concussion*” means a complex pathophysiological process affecting the brain, induced by traumatic bio kinetic forces caused by a direct blow to either the head, face, or neck, or elsewhere on the body with an impulsive force transmitted to the head, that may involve the rapid onset of short-lived impairment of neurological function and clinical symptoms, loss of consciousness, or prolonged post-concussive symptoms.
- B. “*Youth athlete*” means a young person through age 18 who actively participates in an athletic activity, including, but not limited to, a sport.
- C. “*Youth athletic activity*” means any sport or other activity related to competition, practice, or training exercises that is intended for youth athletes and at which an advisor, coach or official is officially presiding.

IV. POLICY

- A. East Range Academy shall provide information to all youth athletes and their parents or guardians regarding the nature, risks, and effects of concussions. The information provided shall be consistent with current medical knowledge from the Centers for Disease Control and Prevention.

- B. The appropriate governing body shall provide school coaches, activity advisors, and officials involved in youth athletic activities training related to concussions.
- C. A coach, advisor, or official shall remove a youth athlete from participating in any youth athletic activity when a concussion is exhibited or suspected. Once removed, the youth athlete may not return to participation until he or she no longer exhibits symptoms of a concussion **and** is evaluated by a trained provider who gives **written** permission to return to participation.

V. PROCEDURE

- A. Information regarding concussions shall be made available at the start of each school year to youth athletes and their parents/guardians through website links or otherwise, and shall include the following:
 - 1. The nature and risks of concussions associated with athletic activity;
 - 2. The signs, symptoms, and behaviors consistent with a concussion;
 - 3. The need to alert appropriate medical professionals for urgent diagnosis and treatment when a youth athlete is suspected or observed to have received a concussion; and
 - 4. The need for a youth athlete who sustains a concussion to follow proper medical direction and protocols for treatment and returning to play.
- B. If a parent of a youth athlete must sign a consent form to allow participation in the youth athletic activity, the form must include information about the nature and risks of concussions.
- C. Each school coach, activity advisor, and official involved in youth athletic activities must receive initial online training and online training at least once every three school years related to concussions through the “Concussion in Youth Sports” online training program on the Centers for Disease Control and Prevention website, as directed by the appropriate governing body of the sport.
