

## IMPORTANT BUS INFORMATION

Moose Lake Community Schools have implemented a new "Ticket to Ride" that will provide the transportation department with the information needed to deliver our students to a location other than the child's typical after school destination.

The tickets will only be necessary if there is a CHANGE in typical after school transportation and must be filled out completely, including the phone number where the school will be able to reach you for any questions that may arise.

If after school plans change during the school day, please notify the office before 2:00.

A "Ticket to Ride", like the one shown below, will be completed with the information you provide. This form can also be downloaded from our website, completed with your signature and sent to school with the child.

Thank you for providing us with this means to safe guard your children!
