

Student Interview for Physical Impairments
Middle/High School
Responsibility of the Case Manager in the Evaluation Report

Student:

Case-manager:

Date:

What are your hobbies?

What are your personal strengths?

What do you need to improve in school?

What do you like the most about school?

If you could change three things about school what would they be?

When you don't understand something, how do you ask for help?

Do you look at your classmates for clues about how to do something if you aren't sure how to do it yourself?

Do you work better alone or with others?

Do you have any problems moving through the school building on your own? How do you ask for help when needed? Do you feel comfortable asking for help?

Are you able to organize materials and complete your assignments? What organizational strategies do you use?

Do you need help solving problems? What kind of help works the best for you?

Can you recognize distractions and have you developed ways to deal with them? How do you deal with them?

Do you understand how to use things like a computer mouse? How do you use technology to help you with your schoolwork?

Do you need any special equipment in school like special pencil grips or a stand to hold/position textbooks? What special equipment do you need/use?

Do you have any problems in gym class (if so what are they)?

Do you have a best friend at school? What do you like to do together?

Do you understand how your physical needs impact your education and possibly your life after high school? How might it impact you?
