## Latency Recording (i.e. Time to Respond) Form

| Target Person's Name:  |   |  |  |  |  |
|--|---|--|--|--|--|
| Person completing this form:   |   |  |  |  |  |
| Location:  | Date(s):  |  |  |  |  |
| Procedures:  |   |  |  |  |  |
| * Write down the behavior that you will be looking for and its definition                            |   |  |  |  |  |
| * Make sure that you have your timing instrument available prior to beginning your observation       |   |  |  |  |  |
| * Each time that you are looking for or expecting the behavior to occur write down the date and time |   |  |  |  |  |
| <ul><li>Write down the time when the ins</li></ul>   |   |  |  |  |  |
| <ul><li>Write down the time when the be</li></ul>  | 14.10.  |  |  |  |  |
| <ul> <li>Calculate the length of time (i.e. leading seconds (This is what you graph)</li> </ul>      | atency) that it took for the behavior to begin and write it in minutes and/or |  |  |  |  |
| Behavior Definition (in specific   | c, <u>observable</u> , <u>measurable</u> terms):                              |  |  |  |  |
|  |   |  |  |  |  |
|  | <del></del>   |  |  |  |  |
|  | i   |  |  |  |  |
|  | <del></del> 1   |  |  |  |  |
|  |   |  |  |  |  |

| Date | Time | Enter time when instruction is given | Enter time when behavior starts | Length of time for<br>the behavior to<br>start |
|------|------|--------------------------------------|---------------------------------|--|
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
|      |      |                                      |                                 |  |
