

PEM Community Schools
iPad Protection Plan Agreement Grades 4-12

The PEM School District provides iPads to students for use in their student learning environment. For students in grades K-3, the iPads are maintained and stored continually within the District's campuses. (In the event of a distance learning environment, iPads will be provided for home use for all K-3 students as well; however, this protection plan only applies to and is required for students in grades 4-12.)

For students in grades 4-12, the District allows for students to utilize their iPads throughout the school year, both on and off campus, similar to text books. However, with this permission is a responsibility for the student to care for their device at all times. This includes recovery of the fees to repair or replace a device that is damaged, lost, stolen, or vandalized. Because repairs of devices can be quite expensive, the District is providing options for the student and family to protect against unexpected fees.

General Guidelines for iPads:

- Devices/accessories that are not operating as intended will be repaired or replaced at PEM expense.
- Devices that have damage (for example, a cracked screen) must be brought to the Technology Department as soon as the damage occurs. Violation of this requirement may raise the repair cost for the device that you would have to cover. Families may not attempt to repair or replace devices on their own.
- During the time period for the repair of a device, PEM will typically provide a loaner iPad for use by the student.
- A police report must be filed in the event of the theft of a device.
- The District has sole authority to determine any and all replacement costs and fees due to vandalism, intentional damage, theft, and lost devices/cases/cords/chargers.
- If vandalism, intentional damage, theft, or lost device does occur, the District reserves the right to require students to check in/out the device daily. Families are responsible to pay for any replacement/repair costs before a student is permitted to bring the device home.
- Devices are returned at the end of each school year or upon withdrawal of the student from the District. The student will be reissued the iPad at the beginning of the next school year.
- See the iPad Device-Accessory Replacement Fees document to determine the fees for repairing/replacing iPads and accessories, when not covered by a Protection Plan agreement.

Options for iPad Protection...Choose ONE of the following (required for each student in Grades 4-12):

_____ I elect to utilize the District Annual Protection Plan Premium with Deductible:

Plan Premium: \$35

Plan Deductible:

- 1st iPad repair is covered under the protection plan.
- 2nd iPad repair will be charged a \$50 fee.
- 3rd and subsequent repairs will be charged the price of the repair. (Repair costs are determined by our iPad repair company.)
- The deductible plan does not apply to devices lost, stolen, or damaged due to vandalism or intentional damage.

_____ I elect to waive my option to participate in the District's iPad Protection Plan. I understand that I assume full responsibility for all repair and replacement costs as determined by the District.
