COMMUNICATIONS

Internal

- **Primary Internal Communication – Intercom System**

Used in all circumstances to provide information throughout the entire school. This communication is the quickest and most thorough way to communicate with everyone that is near an intercom speaker.

**Remember when the emergency causes power outage this form of communication may not work.

**Remember when the emergency involves an intruder, this system will allow the intruder to hear all the messages put forth.

(In these circumstances refer to other methods of communication.

Every emergency needs to be evaluated on an individual basis to determine which form of communication is best suited).

- **Secondary Internal Communication – Phones**

Used when the primary communication is not functional or when the circumstances surrounding the emergency restrict the use of the primary communication. This communication may take longer, but may be more private to prevent intruders from hearing communication. This communication can also be used when time is available as a way to minimize panic in an emergency.

**Remember that phones may be a time consuming method of communication.

**Remember that phone usage especially cell phone usage may disrupt emergency service communications.

- **Other Internal Communication – 2-way radios**

Best used when the primary and secondary methods are unavailable or when communication is needed while persons are moving from place to place within a building.

**Remember that this method is the most mobile form of communication, but may pose a risk in the event of an intruder emergency because 2-way radios can make considerable noise.

COMMUNICATIONS

External

(Communication procedures for communicating with person's off the premises)

- **Primary External Communication – Land-line phone**
Used as the first way to communicate with emergency services that may be outside the building.
(See Emergency Phone Number list).
- **Secondary External Communication – Cell phone**
Used when the primary communication is disabled. Also used when there is no primary communication available.
(See Emergency Phone Number list).

**Remember that excessive cell phone use may cause problems for emergency service communications.

FIRE

In the event of a fire, smoke from a fire or detection of a gas odor:

- Pull fire alarm
- Evacuate students and staff to the designated areas.
 - These areas should be a safe distance away from emergency personnel.
 - Be aware of the arrival of emergency responders. See map of evacuation routes located on all room walls.
- Follow primary fire drill route whenever possible. Follow alternate route if primary route is blocked or dangerous. See map, located on all room walls.
 - Teachers take class roster.
 - Teachers take attendance after evacuation.
 - Teachers report missing students to building administrator immediately.
- If trapped by fire, go to **Shelter-in-Place Procedures**

Building administrator:

- Building administrator (Principal) notifies fire department (call **911**) and superintendent.
- Building administrator or designee meets with emergency officials as soon as possible on the West sidewalk of the Trinity Center.
- Building administrator will move students to primary relocation center at The Trinity Center Property.
- **Do not** reenter buildings until they are declared safe by fire or law enforcement personnel and directed to do so directly from Principal or Superintendent.
- Building administrator notifies staff and students of termination of emergency.

*Fire drills should be held at varied times during the school day.
Practice both primary and alternate routes.*

Extra staffing is necessary for students with special medical or physical needs.

HAZARDOUS MATERIALS

Incident occurs in school:

- Notify building administrator/office.
- Call **911**. If the type and/or location of hazardous material is known, report that information to 911.
- Evacuate to an upwind location, taking class roster. Teachers take attendance after evacuation.
- Seal off area of leak/spill. Close doors.
- Fire officer in charge will determine additional shelter-in-place or evacuation actions.
- Shut off heating, cooling and ventilation systems in contaminated area to reduce the spread of contamination.
- Building administrator notifies superintendent.
- Notify parents/guardians if students are evacuated, according to district policy for alternates to school day.
- Resume normal operations when fire officials approve.

Incident occurs near school property:

- Fire or law enforcement will notify school officials.
- Consider closing outside air intake, evacuating students to a safe area or sheltering students inside the building until emergency passes or relocation is necessary.
- Fire officer in charge of scene will instruct school officials on the need for sheltering or evacuation.
- Follow procedures for sheltering or evacuation.
- If evacuating, teachers take class rosters and take attendance after evacuation.
- If evacuation is not ordered, be aware of and remain alert for any change in health conditions of students and staff, especially respiratory problems. Seek medical attention if necessary.
- Notify parents/guardians if students are evacuated, according to district policy for alternatives to School Day.
- Resume normal operations when fire officials approve.

Extra staffing is necessary for students with special medical and/or physical needs.

SEVERE WEATHER TORNADO/SEVERE THUNDERSTORM/FLOODING

Tornado/severe thunderstorm WATCH has been issued in an area near school:

- Monitor NOAA Weather Radio All Hazards (National Weather Service) or emergency alert radio stations.
- Bring all persons inside building(s).
- Close windows.
- Review tornado drill procedures and location of safe areas.

Tornado safe areas are interior hallways or rooms away from exterior walls and windows and away from large rooms with long-span ceilings.

- Review "drop and tuck" procedures with students.

Tornado/severe thunderstorm WARNING has been issued in an area near school, or a tornado has been spotted near school:

- Move students and staff to safe areas.
- Close classroom doors.
- Teachers take class rosters.
- Ensure that students are in "tuck" positions.
- Teachers take attendance.
- Remain in safe area until warning expires or emergency personnel have issued an all-clear signal.

MEDICAL EMERGENCY

Life-threatening injury or illness, or death:

- Notify office staff/building administrator to make emergency calls. If unable to reach office immediately, call **911. Work as a team.** *Send designee to door to escort emergency personnel.*
- **AED Located on East Wall of game gym.**
- Give full attention to the victim(s).
- Do not attempt to move a person who is ill or injured unless he/she is in immediate danger of further injury.
- If possible, isolate the affected student/staff member. Disperse onlookers and keep others from congregating in the area.
- Check breathing. Is the airway clear? Is the victim in a position to facilitate breathing?
- Help stop bleeding.
 - Applying pressure on wound or elevating wound may help stop or slow bleeding.
 - Protect yourself from body fluids. Use gloves if available.
- Check for vital signs. Initiate first aid, if you are trained.
- Comfort the victim(s) and offer reassurance that medical attention is on the way.
- After immediate medical needs have been cared for, remain to assist emergency medical services personnel with pertinent information about the incident.

Non-life-threatening injury or illness:

- For all non-life-threatening illnesses and injuries, call the office/nurse.

Administrator:

- In case of traumatic medical emergency or death at school:
 - Notify superintendent.
 - Notify victim's parents, guardians or family.
 - Activate post-crisis procedures if necessary.
- In all other medical emergencies, assess individual's need for post-crisis intervention.

***AED is located on East Wall in Game Gym.**

FIGHT/DISTURBANCE

- Ensure the safety of students and staff first.
- Notify building administrator/security/law enforcement. **Work as a team**, especially when separating participants.

- When participants are separated, do not allow further visual or verbal contact.
- Document all activities witnessed by staff.
- Deal with event according to school's discipline policy.
- Building administrator notifies parents/guardians of students involved in fight. Superintendent and police will be notified as necessary, or as indicated by school policy.

INTRUDER

Intruder — an unauthorized person who enters school property:

Minnesota State statute 609.605 subd.4 gives a school building administrator authority to have persons removed from school property as trespassers if they are not authorized to be there.

- Politely greet intruder and identify yourself.
 - Consider asking another staff person to accompany you before approaching intruder.
- Inform intruder that all visitors must register at the main office.
 - Ask intruder the purpose of his/her visit. If possible, attempt to identify the individual and/or vehicle.
- If intruder's purpose is not legitimate, ask him/her to leave. Accompany intruder to exit.
- Notify building administrator and law enforcement.

If intruder refuses to leave:

- Notify building administrator and law enforcement if intruder refuses to leave. Give law enforcement full description of intruder.
- Back away from intruder if he/she indicates a potential for violence. Allow an avenue of escape. To the extent possible, maintain visual contact.
 - Be aware of intruder's actions at this time (where he/she is located in school building, whether he/she is carrying a weapon or package, etc.).
 - Maintaining visual contact and knowing the location of the intruder is less disruptive than doing a building-wide search later.

Should the situation escalate quickly, the building administrator may decide at any time to initiate lockdown procedures.

Note: To assist staff members who interact with a stranger at school, use the "I CAN" rule.

Evacuation considerations:

- If a decision is made to evacuate, notify staff via phone system, hardwired PA system or by messenger. **Do not use cell phones, radios or fire alarm system** because of risk of activating a device.
 - While notification is being made, other staff should survey the grounds to clear exits and areas where students and staff will be going. Exit routes should be altered accordingly if the location of the device is known.
 - When evacuating, leave everything as-is. Leave room doors unlocked. Teachers take class roster.
-

CHEMICAL OR BIOLOGICAL THREAT

If a telephone threat references a chemical or biological device or package, complete the *Checklist for Telephone Threats* procedures and refer to safety procedures in *Bomb Threat* and *Hazardous Materials* sections.

This page addresses receiving, by mail or delivery service, a suspicious letter or package that might be a chemical or biological threat.

When sorting mail or receiving delivered packages:

- Look for characteristics that make you suspicious of the content
 - excessive postage, excessive weight
 - misspellings of common words
 - oily stains, discolorations, odor
 - no return address or showing a city or state in the postmark that does not match the return address
 - package not anticipated by someone in the school or not sent by a known school vendor

If a letter/package is opened and contains a written threat but no suspicious substance:

- Notify building administrator and law enforcement.
- Limit access to the area in which the letter/package was opened to minimize the number of people who might directly handle it. It is considered criminal evidence.
- Ask the person who discovered/opened the letter or package to place it into another container, such as a plastic bag.
- Turn the letter/package over to law enforcement. Document all activities.

If a letter or package is opened and contains some type of suspicious substance:

- Notify building administrator and law enforcement.
- Isolate the people who have been exposed to the substance. The goal here is to prevent/minimize spreading contamination.
- Limit access to the area in which the letter/package was opened.
- Ask the person who discovered/opened the letter/package to place it into another container, such as a clear plastic zip-lock bag. Handle with gloves if possible.
- Emergency officials will determine the need for decontamination of the area and the people exposed to the substance.

Building administrator:

- Building administrator and emergency officials determine whether evacuation is necessary.
- Building administrator notifies superintendent. Notification is made to parents/guardians, according to district policies.
- Implement post crisis procedures as necessary.

- Work with district public information officer.
- Implement post-crisis procedures.

LOCKDOWN PROCEDURES

One means of securing the school is to implement lockdown procedures. These procedures may be called for in the following instances:

- 1) "LOCKDOWN"** – The threat is outside of the school building.
The school may have been notified of a potential threat outside of the building.
- 2) "INTIATE ALICE"** – The threat/intruder is inside the building.

1) LOCKDOWN with warning procedures

- Building administrator will order and announce "lockdown with warning" procedures. Repeat announcement several times. Be direct. Code words lead to confusion.
- Advise everyone to ignore fire alarms. (Intruders sometimes will pull fire alarms to get people to come out so they are able to locate them).
- Bring people inside.
- Lock exterior doors.
- Clear hallways, restrooms and other rooms that cannot be secured.
- Pull shades. Keep students away from windows.
- Control all movement, but continue classes. Disable bells. Move on announcement only.
- Building administrator will announce "all clear."

2) INTIATE ALICE

A ALERT:

- Inform as many people as possible within the danger zone that a potentially life-threatening situation exists.
- Use any communication means possible: PA, text, email, cell phone.
- Use plain and specific language. Avoid code words.
- Classes that are outside of the building SHOULD NOT enter the building. Move outside classes to rallying point – Spring Grove Fest Building.
- Ignore fire alarms

L LOCKDOWN:

- If evacuation is not a safe option, lock doors.
- Barricade the room.
- Silence mobile devices.
- Prepare to EVACUATE or COUNTER if needed.
- Move people away from windows and doors.
- Turn off lights.

INFORM:

- Inform is a continuation of Alert and uses any means necessary to pass on real-time information.
- Use clear and direct language using any communication means possible.
- DO NOT respond to anyone at the door until Administrator announces “all clear”.

COUNTER:

- As a last resort, distract shooter’s ability to shoot accurately. Move toward exits while making noise, throwing objects or adults swarm shooter.

EVACUATE:

- When safe to do so, remove yourself from the danger zone.
- Run from danger when safe to do so using non-traditional exits if necessary.
- Rallying point – Spring Grove Fest Building.
- Teachers take attendance and notify the building administrator of missing students or staff as soon as it is safe to do so.

**ALICE is not designed to be sequential.
Always call 911 when it is safe to do so.**

Some other threats may override lockdown, i.e., confirmed fire, intruder in classroom, etc.

Lockdown may be initiated in non-threatening circumstances to keep people away from areas where there may be a medical emergency or disturbance.

SHELTER-IN-PLACE PROCEDURES

Sheltering in place provides refuge for students, staff and the public inside the school building during an emergency. Shelters are located in areas of the building that maximize the safety of inhabitants.

Sheltering in place is used when evacuation would put people at risk (i.e., tornado, environmental hazard, blocked evacuation route).

Shelter areas may change depending on the emergency.

- Identify safe areas in each school building.
 - Game Gym
 - Practice Gym
 - Cafeteria (Overflow)
- Building administrator announces that students and staff must go to shelter areas.
- Bring all persons inside building(s).
- Teachers take class rosters.
- Close all exterior doors and windows, if appropriate.
- Turn off ventilation leading outdoors, if appropriate.
- Teachers account for all students after arriving in shelter area.
- All persons remain in shelter areas until a building administrator or emergency responder declares that it is safe to leave.

If all evacuation routes are blocked:

- Stay in room and close door.
- Keep air as clean as possible.
 - Seal door.
 - Open or close windows as appropriate.
 - Limit movement and talking in room.
- Communicate your situation to administration or emergency officials by whatever means possible.

EVACUATION/RELOCATION

Evacuation:

- Building administrator initiates evacuation procedures.
- Evacuation routes may be specified according to the type of emergency. They may need to be changed for safety reasons.
 - Bombs: Building administrator notifies staff of evacuation route dictated by known or suspected location of a device.
 - Fire: Follow primary routes unless blocked by smoke or fire. Know the alternate route.
 - Chemical spill: Total avoidance of hazardous materials is necessary as fumes can overcome people in seconds. Plan route accordingly.
- Teachers take class rosters.
- Do not lock classroom doors when leaving.
- When outside the building, account for all students. Immediately inform building administrator of any missing student(s).
- Office Staff/Health Staff is responsible for transporting necessary medications for students.

Relocation:

- Building administrator determines whether students and staff should be evacuated to a relocation center.
- Building administrator or school emergency response team designee notifies relocation center.
- If necessary, a school emergency response team designee coordinates transportation to relocation center.
- Teachers stay with class en route to the relocation center and take attendance upon arriving at the center.
- Use student release forms for students who are picked up from a relocation center.
- Notify superintendent's office and district public information office of relocation center address.

Relocation Centers:

List primary and secondary student relocation centers. The primary site is usually located close to the school. The secondary site is usually located farther away. Include maps and written directions to centers for staff reference.

Primary Relocation Center:

Trinity Center

Address:

198 W. Main

Phone:

507-498-5656

Secondary Relocation Center:

Fest Building

Address:

110 N Division Ave.

Phone:

MEDIA PROCEDURES

**All staff must refer media contacts to district spokesperson.
The school district, in coordination with assisting agencies, assumes responsibility for issuing public statements during an emergency.**

- Superintendent serves as district spokesperson unless he/she designates a spokesperson. If spokesperson is unavailable, an alternate assumes responsibilities.

District spokesperson: Rachel Udstuen(Superintendent) 507-498-3221
Name Contact Number

Alternate spokesperson: Nancy Gulbranson (Principal) 507-498-3221
Name Contact Number

- District Public Information (PI) person helps district spokesperson coordinate media communications.

District PI: Lyn Solberg (City Hall) 507-598-5221
Name Contact Number

Alternate PI: Aaron Solum(Board Chair) 507-498-3593
Name Contact Number

Media checklist:

- Building administrator relays all factual information to superintendent and public information person.
- Establish a media information center away from the affected area. Consider:
 - Media need timely and accurate information. However, protect the privacy of staff and students when necessary and justified.
 - Media will want to be close enough to shoot video footage and photographs, but they should not be allowed to hinder responders.
- Before holding a news conference, brief the participants and coordinate information.
 - Determine the message you want to convey. Create key messages for target audiences: parents, students and the community.
 - Emphasize the safety of students and staff.
 - Engage media to help distribute important public information. Explain how the emergency is being handled.
 - Respect privacy of victims and families of victims. Do not release names to media.
- Update media regularly. DO NOT say "No comment." Ask other agencies to assist with media.
- Maintain log of all telephone inquiries for future use.

POST-CRISIS INTERVENTION PROCEDURES

- Assess the situation to determine the need for post-crisis interventions for staff, students and families.
- Family Support Worker to be contacted immediately to set-up and handle Post-Crisis Interventions and Counseling. (Hiawatha Valley is back-up if Family Support Worker can not be reached).
- Provide post-crisis briefings for staff, students and families as appropriate.
- Re-establish school and classroom routine as quickly as possible.
- Consider interventions:
 - Defusing – Provide defusing sessions for students and staff as quickly as possible after the emergency.
Defusings are brief conversations with individuals or small groups held soon after an incident to help people better understand and cope with the effects of the incident. **Defusing should be conducted by trained individuals.**
 - Debriefing – Conduct critical-incident stress debriefing (CISD) three to four days after the emergency.
CISD is a formal group discussion designed to help people understand their reactions to the stress of an event and to give referral information. It must be modified for student's developmental level. **CISD should only be conducted by trained professionals.**
 - Counseling – Provide grief counseling. (Family support Worker)
- Provide on-going support as necessary for staff, students and families.
 - Monitor and support staff.
 - Provide ongoing opportunities for children to talk about their fears and concerns. They may have more questions as time passes.
 - Identify and monitor at-risk students.
 - Provide individual crisis or grief counseling, if necessary.
 - Conduct outreach to homes.
 - Provide follow-up referral for assessment and treatment if necessary.

The school counselor is the 24-hour contact person responsible for post-crisis assessment and interventions.

In the event of a tragic, highly publicized event, mental health professionals from federal, state and non-government agencies may respond to offer post-crisis aid. Effective coordination is critical. Consult with the Minnesota Department of Education for support, advice and assistance in coordinating the activities of outside entities.

SCHOOL EMERGENCY RESPONSE TEAM

Build the school's emergency response team with people who can perform the functions identified below. Backup personnel should be assigned to each function, and key personnel should be cross-trained in critical requirements of the functions. Staff members who are not responsible for students should fill as many of these functions as possible. **Depending on the emergency, one person may be able to perform multiple assignments.**

See next page for descriptions of emergency response team functions.

Function	Staff Assigned	Backup Staff
Incident Commander (person in charge)	Superintendent	Principal
Safety	Superintendent	Principal
Public Information	Superintendent	Principal
Liaison	Head of Maintenance	Athletic Director
Operations Chief	Principal	Superintendent

These functions mirror the National Incident Management System (NIMS) used by emergency responders.

SCHOOL RESPONSE TEAM FUNCTIONS

The National Incident Management System (NIMS) was adopted by the U.S. Department of Homeland Security and is intended for use by all state and federal agencies when responding to emergencies. The system provides integrated and coordinated management guidelines for all types of disasters and emergencies.

Most functions necessary for emergency response in the community are also necessary for emergencies within the schools. Incident management functions below are described in the context of a school setting.

Incident Commander (person in charge)	Activates school's emergency response plan; assesses the threat; orders protective measures such as lockdown, evacuation or shelter-in-place; notifies district authorities and provides situation updates; requests resources.
Safety	Responsible for safety and security of the site; stops operations if conditions become unsafe.
Public Information	May be designated site spokesperson; cooperates with the district and other agencies on joint news releases; coordinates media briefings as necessary.
Liaison	Contact person for outside agencies; may represent school/district at city emergency operations center or at emergency responders' on-scene command post.
Operations Chief	Directs actions, i.e., lockdown, evacuation, site security, release of students to parents/guardians, first aid or medical care, cleanup, control of utilities.
Medical	Provides for first aid or other medical care; coordinates with emergency medical services personnel as necessary; activates school's first aid/CPR responders. Also responsible for taking students medications with and dispensing in the case of evacuation or lock-down.
