GO AND GROW ROOM

by Kyleigh Doering

Past Spring Grove graduate, Kyleigh Doering, has been doing an internship here at school for college credit.

BEFORE

While doing my internship at Spring Grove Public schools, I needed to successfully create a planned change project for my college as a requirement to graduate in the Human Services program.

I was informed that the school needed a space for students to go for sensory breaks. I did a lot of research and spent many hours creating a little space that the students can use. It is called the 'go and grow' room. I thought this name was fitting because it really is a space for the students to go reflect on their feelings and grow from it. I enjoyed doing this project and hope the students enjoy using the space.

"Thank you Kyleigh for making this space!"
