SPRING GROVE PUBLIC SCHOOLS

We want to hear from you!

To the community,

Over the last few years, the District has been having conversations about the need to update and expand our school facilities to better meet the needs of our students and the greater Spring Grove community. Those conversations became a part of the greater community conversation and visioning, now known as Spring Grove 2030. While the important work of Spring Grove 2030 continues, the District has also been working to determine if it is time again, 35 years since the last addition, to ask our community to make a significant investment in our facility.

As large investments are needed at our aging facilities, **we want to ensure all citizens have a voice in the planning process. Therefore, we are asking you to please complete this important community survey!**

Click here to take the survey online:

Or [Download](#) and print a pdf. Once complete, drop off or mail the survey back to the Spring Grove School District Office.

If you would like a paper copy mailed to you, please call the school: (507) 498-3221
