CONFERENCES

Students in grades 9 - 12 participated in Career Conferences for the first time this fall. Advisors and teachers conversed about career interest areas and indicators of career, college, and life success using the student personal learning plan as their guide. The information from these plans will also guide the school as they work to create more workplace learning and certification opportunities for our students.

WELDING A PARTNERSHIP!

Spring Grove Schools is creating a partnership with LAX fabricating to add welding certifications to our welding course that will be offered in semester 2. Students will not only receive instruction from our expert teacher, Karen Tisthammer, but will also receive guidance, assessment, and feedback from professionals at LAX Fabricating that will lead to certification in the field.

Isaiah the Magician had an entertaining and informative program on Friday for the elementary students.
